PROSPECTUS NATIVE AMERICAN

PROTESTANT ADVOCATE. IT is proposed to publish in the City of Jackson, a sem monthly periodical under the above title, in pamphi form, each number containing about thirty-two page. The struggle between Native Americanism, and the d minion of Foreigners, between Popery and Protestan ism, is in its infancy. It must be continued until foreign influence and Popery shall have crushed Democracy and it right to worship food according to the dictates of the coscience of each man and woman shall be finally secure Luther and his associates went through a fearful strugg to achieve the reformation. We are now engaged in it same struggle, to continue and confirm to man, politic and religious liberty. We have been as men in fancie security, sleeping around a volcano, the lava silent rising and about to overwhelm them before they are coscious of the impending danger. Securely reposing security, sleeping around a volcano, the laya silently rising and about to overwhelm them before they are conscious of the impending danger. Securely reposing in the enjoyment of our political and religious freedom, popery and foreigners have silently gained strength, until those who have investigated the subject see that the danger must be averted, now, or never. A few years more of inactivity and all is lost. We wish to arouse the people from this dangerous apathy, by laying before them well authenticated facts, whereby each individual can judge for himself. We propose to avoid everything but calm, decorous and fair reasoning from true premises, and to place before the community the materials, with impartiality:—facts as they are and have been, with the evidences of their authenticity.

The periodical will be edited gratuitously by a committee composed alike of Democrats and Whigs, and of christians of each sect in our country, that the public may have assurance, that it is fairly and impartially conducted. The price, Two Dollars per annum, payable on the delivery of the first number, which will issue so soon as one thousand subscribers are obtained, and the names forwarded. If a surplus fund remain, it will be approated to distribute gratuitously amongst the lodges, papers for circulation. Act promptly, friends of freedom, and forward subscriptions, directed to "The Executive Committee of American Party." Jackson, Miss.

Fifty-second Volume: The Pioneer Hagazine:
Especially devoted to the wants of the Ladies of America.
WHERE this Magazine is taken in a house, no other is
wanted, as it compromises all that could be obtained by taking three other Magazines.

New Features for 1856.

A new and very interesting story will be commoned in January, by Marion Harland, author of "Alone," and "Hidden Path," two novels that have created an immense sensation in the literary world. Also—Miss Virginia F. Townsend will commence in the February number a Nouvellette, which we know will strongly interest the readers of the "Book."

for the Ladies, and where they come from, with engravings.
This is only giving an idea of our intentions for 1856.—
New designs of interest to the ladies are springing up
everyday; we shall avail ourselves of everything that
can interest them. In fact, "Goddy's Lady's Book," will
possess the interest of any other three magazines.
In addition to the above will be continued in each No.

We would advise all who intend to subscribe to send to their orders soon, for if we do not make duplicate stereotype plates, it will be difficult to supply the demand. We expect our list for 1856 will reach 100,000 copies. The best plan of subscribing is to send your money direct to the publisher. Those who send large amounts had better send drafts, but notes will answer if drafts connot be procured. Letters had better be registered—It only costs five cents extra, and their safe reception is insured.

CHERRY PECTORAL, For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in his generation to facilitate the business of life-increase s enjoyment, and even prolong the term of human exstence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely conwhich have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affec ions of the lungs. Our space here will not permit us to \$300,000 publish any proportion of the cures affected by its use, out we would present the following: end refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these state

J. C. Ayer. Dear Sir,—My little son, four years old
has just recovered from a severe attack of malignant
Scarlet Fever, his throat was rotten, and every person
that visited him, pronounced him a dead child. Having
used your Cherry Percoral, in California, in the winter
of 1850, for a severe attack of Bronchitis, with entire succoss, I was induced to try it on my little boy. I gave
him a tea-spoon-full every three hours, commencing in
the morning, and by ten o'clock at night. I found a decided change for the better, and after three days use, he
was able to eat or drink without pain.

Its use in the above named disease will save many a
child from a premature grave, and relieve the anxiety of
many a fond parent. For all affections of the Throat and
Lungs, I believe it the best medicine extant. A feeling
of the deepest gratitude, prompts me in addressing you
these lines,—but for your important discovery, my little
boy would now have been in another world.

I am yours, with great respect,

STATE TREASURER. Mr. BRUCE, from a select committee, to whom was referred the communication of R. C. Wintersmith, Treasurer, made the following re-

The special committee, to whom was referred the communication made to this House by R. C. Wintersmith, Esq., Treasurer of this Commonwealth, report: That they have fully investigated the subject matter of said communication, and have obtained the opinion of the Attorney Gen eral of this Commonwealth, on the construction of the act of the Legislature, under which said Wintersmith received the money mentioned in said communication. Said opinion of the Attorney General is herewith reported as a part hereof; from which it will be seen that it is his opinion of the Attorney General is herewith reported as a part hereof; from which it will be seen that it is his opinion. ion that said Wintersmith, as Treasurer of the Commonwealth, had the right to receive said money under said act, whether he actually ex-pended the whole or any portion of it for clerk hire or not, provided that he caused all the duties nd business of the office of Treasurer to be properly discharged -- and in that opinion this mittee fully concur. This opinion of the Attorney General and the committee is corroborated the evidence of gentlemen, members of the Legislature, at the time of the enactment of the tatute, that such was then the intention of the

This committee fully and cheerfully exculpate Mr. Wintersmith from any improper conduct in connection with this matter, or from having any thing which would justify the remotest suspicion of dishonorable or improper conduct on his part. This committee are also of opinion that Mr. Winterschlauser and the control of the co tersmith has faithfully and honestly discharged the duties pertaining to his office. Therefore, the committee report to the House, for its adop-

ion, the following Be it resolved by the General Assembly of the Comnonwealth of Kentucky, That said R. C. Win-ersmith, Treasurer of this Commonwealth, has faithfully and properly discharged, and caused to be discharged, all the functions of his office; that had both the legal and moral right to re ceive and appropriate the money drawn by him under the act, approved March 9, 1854; that in doing so, he neither unlawfully nor unjustly appropriated any money of the Commonwealth to his own private purposes; and that no censure whatever can properly be attached to his conduct in connection therewith. in connection therewith.

H. W. BRUCE, Ch'm. ATTORNEY GENERAL'S OPINION. ATTORNEY GENERAL'S OFFICE,

February 1, 1856. (SIR-I have received yours of to-day's date equesting my opinion of the proper construction the act "concerning the Auditor's Office and the Treasurer's Office, approved March 9, 1854.'
The act is in these words: "That hereafter there shall be an additional allowance of one thousand lollars per annum for Clerks' hire in the Audit r's Office; and five hundred dollars per annum to the Treasurer, to enable him to employ the services of a Clerk, to aid him in the performan ces of his duties; and the same shall be paid out of the treasury in the same manner that other

It will be perceived there is a slight difference in the language used in the appropriation for Clerks' hire in the Auditor's Office, and that to the Treasurer. Omitting that portion of the act relating to the Auditor's office, and it would read: "That hereafter there shall be an allowance of five hundred deliber to the Treasurer. we hundred dollars to the Treasurer, to enable im to employ the services of a Clerk to aid

im in the performance of his duties."

The office of Clerk in the Treasurer's Office not created by the act. The appropriation is irectly "to the Treasurer," and not to any Clerk whom he might appoint. The Treasurer, in my opinion, was authorized to draw the money from he Treasury, and the manner of its appropriaion seems, by the act, to be left to his discretion islature did not intend to impose any restriction n the Treasurer as to the manner of applying the money; and the question at last is, whether the duties of the office have been properly discharged; and whether they were performed by himself alone, or whether he was aided by one or more clerks, is a matter of no consequence so far as the Commonwealth is concerned. In the judgment of the Legislature, the additional sum of five hundred dollars was necessary to insure proper discharge of the duties of the office. I am, very respectfully, your ob't serv't, JAMES HARLAN.

H. W. BRUCE, Esq., Ch'm, &c. The report and resolution was laid upon the table for one day, under the rule requiring joint resolutions to lie one day on the table.

The weather certainly deserves a notice. Its like was never known in Kentucky. For some weeks we have had no thawing in the shade, except once, or perhaps twice, for a few hours; and very little thawing in the sun. The same snow that fell seven weeks ago still lies upon the ground, with sundry additions since made to it. The same ice then formed still coats the sidewalks upon the shady side of every street.

The mercury has shown throughout that period a remarkable attachment to the vicinity of zero: generally playing in a space between that point and fifteen or twenty degrees above, but occa sionally dropping down fifteen or twenty degrees below. About the first of last week it went down semi-occasionally. Its first incursion below zero (about that time,) was on Saturday morning. We do not know how far it went, but we saw it coming back after sunrise. On Sunday morning it took a little deeper excursion into that lower region-a lower region which, unlike the "lower regions" of Pluto, grows colder, and not hotter, the farther you penetrate-nor did it ascend across the line at any time throughout the day. On Monday it dipped down still lower, and reached full eighteen degrees below. On Tues day it dipped down again, but failed, by three de grees, of getting as low as the day before.

Land and water are everywhere bound fast in ice. Omnibusses and waggons loaded with iron cross the Ohio upon the ice at Cincinnati. The Mississippi river is obstructed by floating ice as low down as Baton Rouge. The rivers of Texas are frozen over, and ice from the Colorado has been put up at Austin. In short, the South has had a real Northern winter. Ours here in Ken tucky would not disgrace Labrador, except tha we lack Labrador's five or six feet of snow; a Canadian would think it just "seasonable;" and a Yankee from Maine wouldn't know it from one of his own native winters, except that our fence are not hid by snow, as his his apt to be at this time of year. For ourself, personally, we rather enjoy it. There is about it a smack old times and boyhood's days; for it is very much after the fashion of those we were "brought up" on, in the Lake Erie region, about the latitude of 42. But it is a terrible winter upon the poor, and a most disastrous one upon the produce dealers and other business men, who find everything frozen up and obstructed, except the stream of time, which brings the maturity of their bills and acceptances drawn upon intended shipments forbidden by the

The Peace Propositions.

The last news from Europe being to the effect that Russia had accepted the propositions for peace submitted by the Allies, through Count Esterhazy, the Austrian special ambassador, becomes peculiarly interesting to re-examine these propositions, and see what are the precise terms upon which this grand quarrel is said to be adjusted Here are the propositions:

I. DANUBIAN PRINCIPALITIES. Complete abolition of the Russian protectorate The Danubian Principalities shall receive an or ganization conformidable to their wishes, to the vants, to their interests, and this new organiz tion, respecting which the population itself wil be consulted, shall be recognized by the contract ing powers, and sanctioned by the Sultan as ema nating from his sovereign initiative. No stat shall be able, under any pretext whatever, under any form of protectorate, to interfere in the que tion of the internal administration of the Princ palities; they shall adopt a definitive permanent system demanded by their geographical position and no impediment can be made to their fortify ing, in the interest of their safety, in such man-ner as they may deem advisable, their territory gainst foreign aggression.

In exchange for the strong places and territo ries occupied by the allied armies, Russia con sents to a rectification of her frontier with Tur key in Europe. It would commence in the vicin ity of Chotym, follow the line of the mountains which extend in a south-easterly direction and terminate at lake Sasik. The line (trace) shall be definitely regulated by the general treaty, and the conceded territory would return to the Prin

cipalities and to the sovereignty of the Porte. II. DANUBE. The freedom of the Danube and of its mouths shall be efficaciously assured by European insti-tutions, in which the contracting powers shall be equally represented, except the particular posion of the lords of the soil on the banks iverains), which shall be regulated upon the rinciples established by the Act of the Congress of Vienna as regards the navigation of rivers .-Each of the contracting powers shall have the ight to keep one or two small vessels stationed t the mouths of the river, destined to assure the xecution of the regulations relative to the free lom of the Danube

III. NEUTRALIZATION OF THE BLACK SEA. This sea shall be open to merchant vesselsequently, no marine military arsenals shall be reated or maintained there. The protection of reated or maintained there. he commercial and maratime interests of all na shall be assured in the respective ports of he Black Sea, by the establishment of institution onformidable to international law, and to the ustoms sanctioned in such matters. owers which hold the coast, engage themselves o maintain only the number of light vessels of a xed force, necessary for their coast service. This convention, concluded separately between these two powers, shall form part as an annex of he general treaty after receiving the approval o he contracting parties. This separate convention cannot be annulled or modified without the consent of the signitaries of the general treaty The closing of the Straits will admit the excep ion applicable to the stationary vessels mentioned in the preceding article.

IV. CHRISTIAN SUBJECTS OF THE PORTE The immunities of the Rayah subjects of the Porte should be religiously preserved, without inringement on the independence and dignity ne Sultan's crown. As deliberations are taking and the Sublime Porte to assure to the Christian subjects of the Sultan their religious and politi-cal rights, Russia shall be invited, when peace is

of our banks that they were "among the most enlightened, honest and honorable citizens of the State," and yet charged them with deliberately planning and prosecuting, and rejoicing in the success of measures utterly repugnant to the moral sense of every upright man. This inconsistency I pointed out. Has he removed it?

Again: He represented the dividend of 7 per cent. by the Bank of Louisville, and of 8 per cent. by the Northern Bank, to have been declared out of the profits of the last six months' business; and that these dividends proved that the cost of money borrowed from the banks was from 14 to 16 per cent. per annum, and grew sublime ly indignant as he contemplated such an enor mous pressure upon an "already over-burthened commerce." I exposed this misrepresentation by showing that the amount of loans was the only true basis upon which to estimate the average cost of money borrowed from the banks; and that when thus ascertained, the result, taking the statement of the Northern Bank as the foundation of the argument, was an annual average cost of not quite 71/2 per cent. per annum, instead of fourteen to sixteen per cent., as claimed by the of light and agreeable braces respectively, he Journal. And how does he meet this argument? Simply by an effort to prove that the earnings of the Northern Bank during the last six months and incomplete to give during the complete to drooping, languor, an ungraceful rounding and incomplete to give during the shoulders, (particularly of were nearly 8½ per cent. upon the capital. Even and inequality of the shoulders, (particularly of this were true, it does not in the slightest degree children and young ladies) weakness and flataffect the point at issue. Journal's figures, it would seem, are as little reliable as its fancies. When the editor takes up a bank statement out of which to construct an argument, he should be sure that he understands it before proceeding. The next time he attempts it, would it not be well for him to procure the aid of some "acute old bank manager" to assist him? e has vet presented.

directors motives, measures and practices the ed, honest and honorable citizens of the State .-And adduced as evidence to sustain the charges, the large amount of bills held by the banks and the liberal dividends they had declared. I attempted to show that the evidence adduced did Frankfort, Feb. 7. 185 not sustain the charges, and that the conclusion to which he arrived was, consequently, a mere assumption. How did he dispose of the argument? Does he attempt to show by facts that the rade, manufactures, agriculture and mining promarket values of nearly all of the articles which now than formerly; and that the advancement in these particulars has not been in proportion to the ncrease of the "bill business" transacted by the banks? Not a word of it. He simply contents himself with re-asserting his former assumptions upon that point, and with a sickly attempt at wit

f exchange charged upon long and short time was the greater difficulty in determining the value to the bank of funds at any given point eight months hence, than two months hence. The first reason given he affects to regard as a "discovery" -as something unheard of before, and as idea "too absurd for serious refutation." other he characterizes as "plausible," but "knavsh." I shall not criticise the language he em ploys, but simply remark that it was very appaent, from the former articles in the Journal that the editor was engaged in the discussion of

conclusive evidence of usury. The argument is that exchange has no reference to time, but only to the place of payment. That interest is taken for the time and regulated by it, but exchange should be the same whether a bill has a long or a short time to run. As the exchange on the bill is the difference in the relative value of money at different places, this reasoning would money at different places, the money are different places, the country where the business and the money market are staple, and their condition at a future day could be calculated with some certainty. But here, the changes and fluctuations in the money market and in exchange tuations in the money market and in exchange are frequent, and their extent uncertain. The are frequent, and their extent uncertainty:

The are frequent, and their extent uncertainty: more distant the time, the greater the uncertainty; and as the hazard is increased by postponing the payment, an increase of premium adequate to the ad-ditional risk is naturally and properly demanded."

The same principles have just received the sanction of both branches of our Legislature, in their vote upon the bill chartering the bank at Ashland: in which it is expressly provided that the rates of exchange charged upon bills of ex-change, shall be controlled by the length of time

the bills have to run. of the reasons assigned, by a decision of the Court of Appeals, and by both branches of our Legislature, I can well afford to let the Journal

Cass fell as he was coming out of the Patent Office at Washington, and injured himself Patent Office at Washington, and injured himself severely. He was taken up insensible, and bleeding at the temple and mouth. Physicians (Drs. Miller and Garnett) were called to his aid. It was first supposed that his skull was fractured, but this was found not to be the fact. At last accounts he was able to recognize some of his friends, and seemed easier. Danger from inflammation is feared, from which there would be less to fear if he were a young man.

GALLERY OF AMBROTYPES, H. L. GOODWIN, Daguerreotypist,

THE subscriber now offers to the public a NEW STYLE of picture, far superior to Daguerreotypes, Photographs, or any other kind of picture. They are termed AMBROTYPES.

A IM D K O I Y P E S.

The process for which is patented in the United States, freat Britain, and France. These pictures are conceeded to be the MOST BEAUTIPUL AND TRUTHFUL ever produced by the Photographic art. The exceeding fineness, depth of light and shade, and richness of tone, is wonderful. They do not reverse the subject, but represent everything in its true position. They are without the glare of a Daguerreotype, and hence may be seen in any view. They will LAST FOR AGES UNCHANGED,

in guiperishable. Ambrotype Stereotypes must be seen to be appreciated. The relief is as perfect as life. The HIGHEST PREMIUM was awarded by the Menanics institute, at its late exhibition in Louisville, to ROXEL'S AMBROTYPES.

TROXEL'S AMBROTYPES.

These pictures are made in the State of Kentucky only by W. L. TROXEL, at his Ambrotype Gallery, on MAIN STREET, LOUISVILLE, and now during the sitting of the Legislature, at the ROOMS OF H. L. GOODWIN, on St. Clair street, Frankfort, Ky.

DOXON & GRAHAM Neep everything, and persons wishing an outil for house-keeping, call on us and find in our store-rooms almost every article necessary for house-keeping, from a Rolling pin up to a sugar cured Ham, Table ware, Spices, &c., &c. Then they want FURNITURE. "Not calculating from the proceeds of profits," but from the fact that a complete outfit can be purchased at our house for house-keeping, relieves the purchaser from much trouble and many small bills, we have, for the accommodation of our customers, recently enlarged our furniture rooms, and can now, and will in future be able to offer inducements to all wishing to purchase—provided leuest figures be an inducement.

It would be an endless undertaking to furnish a complete catalogue of the articles we offer for sale, in addition to Furniture; but, feeling a desire to benefit the public, we venture to call attention to a very few, as follows:

The Chain Pump,

Decidedly the cheapest and most desirable Pump eve invented, and warranted to perform well when put up by us. We are prepared to furnish Iron and Wood curbing and Iron, Zink, and Wood Curbing at very low prices. Atmospheric and Suction Pump.

This description of Pump is generally well known they perform satisfactorily in shallow wells or cisterns but their liability to freeze renders them troublesome. The Suction and Force Pump. A most excellent Pump, upon the same principles of the Atmospheric Pump, capable of lifting water thirty-three feet, and then forcing it flity or sixty feet, from a short leather hose; but still this pump is also liable to freeze and burst, unless the valve is opened by elevating the leaves after pumping.

Earthen Tubes. A new invention for sewers and drains, costing only six cents per foot—easily put down and very durable; cer-tainly the best and cheapest drain ever invented. A LARGE SUPPLY OF

Metalic Burial Cases

Metalic Burial Cases

of all sizes, from twenty-two inches to seven feet long,
ornamental and plain finish, covered with fine cloth and
fringe, &c., silver mounted and bronzed.

Having first introduced these Cases in our city, proven
by trial to be most admirably adapted for preserving the
mortal remains, the decided preference given them over
the old fashioned wooden box, the increased demand in
the city, county, and adjoining counties has induced us
to purchase first rate HEARSE, which, together with
any number of CARRIAGES ordered, will attend all
funeral oecasions desired. We have also a large lot of
Wooden Boxes to enclose the Metalic Cases, which we
will furnish at \$1 for small and \$3 for largest sizes; and
in every instance where we furnish Burial Cases, Boxes,
or Hacks, we warrant the bills satisfactory, and no extortion.

T is well known that there is great economy in crushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cob when properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and ot been more generally introduced among planters and armers, has been their complex arrangement and high

In the Kentucky Corn and Cob Mill, of which the In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by nand, and is applied directly under the centre of the mill.

Any one using these Mills will find a clear saving of ONE QUARTER of their corn over the old plan of feeding. We warrant these Mills to give entire satisfaction. Purchasers may use them for thirty days and if not satisfied, can return them and get their money.

They will grind Corn and Cob as fine as desired, at the following rate per hour, with one horse:

No. 1,4 to 5 bushels per hour. Weight 350 %s. Price \$25.00.

No. 2, 6 to 8 bushels per hour. Weight 400 & s. Price \$30 00. Adding freight from Louisville.

The above prices includes the complete Mill ready to hitch to without any further expense, and can be set in operation in five minutes time. For sale by E. L. SAMUEL,

STRAW-CUTTER QUESTION. STRAW-CUTTER QUESTION.

MESSRS.J.B. FORD &CO., of the city of New Albany, Min the State of Indiana, claiming to be the owners of Sandford's paten-right to manufacture what is known as Sandford's Straw-Cutter, have soldthe right to manufacture the same to various persons for certain prescribed territories, and they have warned the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time satisfied that the so-called-Sanford patent is a fraud, and that it is void, being a plapable piracy and infringement of the patent-right of John Boynton, which bears date 25th day of September, 1838, and has expired. We have been satisfied that the machine denominated Sanford's perfect Straw-Cutter is constructed not according to the specifications contained in Sandford's nominated Sanford's perfect Straw-Cutter is constructed to according to the specifications contained in Sandford's patent, but according to the specifications contained in Soynton's and all this has recently been decided in the J.S. Circuit Court for the Middle district of Tennessee. Some months since, we sold to B. S. Weller, of Nash-rille, several of the so-called Sanford Straw-Cutters, which were taken by him to the State of Tennessee and here sold. Ch's M. Alexander claimed to be the assignee f Sanford's patent for the State of Tennessee from J. Ford & Co., and sued Weller on infringement. Weller defended and insisted that Sanford's patent is void nd a piracy on Boynton's, and, as we before said, court nd jury so decided. nd Jury so decided. We are prepared, as heretofore, to furnish all orders or the Straw-Cutters manufactured by us, and to defend

MORTIMORE'S RHEUMATIC COMPOUND.

THIS truly celebrated preparation, efficacious alike I for each and every description of Rheumatic Complaints, is already too well known and esteemed throughout the United States, to require any lengthy notice of its paramount virtues. It eradicates this hereto-fore incurable and distressing disease from the system. We do not propose to make unqualified statements of force a nostdum before the public, but simply to request those most interested

SUFFERERS THEMSELVES, to procure from the agent in their vicinity, a circular, and not only read the testimony of those who have experienced its invaluable curative powers, but to write to, or call upon, the convalescents, so that the statements may emanate from the Fountain Head—a course which will satisfy the most incredulous, and one by which the reputation of the Remedy is certain of being sustained. Write falso to the proprietors, who will accord every information, and furnish names of undoubted character from every section of the Union, numbering among them some of the most eminent Physicians, Clergymen, Editors, and prominent citizens, rendering the reliability SUFFERERS THEMSELVES, Editors, and prominent citizens, rendering the reliabil
